What is Astrology

Astrology is the study of the effects of planetary forces upon man. It is not fortune telling. It is one of the best methods for man to learn about who he is, where he came from and where he is going. Astrology reveals CHARACTER and character is destiny. If man can change his character, then man will have changed his destiny. The main uses of astrology are diagnosis of health and sickness, character analysis, vocational guidance, analysis of children's horoscopes so as to give parents a better idea as to how best to raise their children, and analysis of the compatibilities between people.

Astrology does not show anything but tendencies. A man can rule his stars by exerting his will. If a man decides to flow with the tide of life, then the tendencies indicated in the birth chart will at some time have their effect. The one thing a birth chart does not show is the WILL of the individual and how he may exert it. The matter of exercising free will is left entirely up to the individual. The wise man rules his stars, the fool is ruled by them. Astrology forewarns and being forewarned, a man is thus forewarned to better cope with the struggles of life.

Aquarius Ascendant

People with Aquarius rising tend to be altruistic, friendly, yet detached, impersonal, humanitarian, sociable, intellectual, freedom-loving, rebellious, independent, and unusual.

You are here to learn altruism, brotherhood, and working for the common good, to forget yourself and your needs for the sake of your friends, who can also be strangers.

“ You have new and different ways of looking at things. You can be very original and inventive, perhaps eccentric or bohemian.

You are prone to uncertain and sudden impulses. You tend to be very intuitive, possessing a good mind. You have organizing ability and are capable and practical.

You are intelligent, but sometimes cold and calculating where feelings are concerned. There is a certain detachment about you. You cannot stand possessiveness and jealousy and you require plenty of freedom.

Depending on the relative strengths of Saturn and Uranus in your chart, caution, coldness and selfishness may be exhibited (Saturn stronger) or there will be more altruism, freedom and free-flowingness (Uranus stronger).

“ If Uranus is stronger, then the things of the spirit will be stronger than materialistic worldliness. Saturn and Uranus both rule Aquarius so Saturn and Uranus will be important in your chart.

Spiritual lesson to learn

Warmth (less head and more heart).

Sun Profile

The SUN symbolises the ESSENTIAL SELF; the WILL; CONSCIOUSNESS; GROWTH; the EGO; LIBIDO; OBJECTIVITY; INDIVIDUALITY; WHOLENESS; and the SPIRIT. It is the MASCULINE PRINCIPLE in contrast to that symbolised by the MOON. It is personified by RULERS; LEADERS; PUBLIC FIGURES; the FAMOUS; and PERSONALITIES.

Sun in 9th house

You may wish to find, understand, live and accept a higher ideal or philosophy. But, then again, you may be one who insists upon scientific proof before anything can be believed. You can be the far-sighted thinker, one of high ideals and tolerance of other people's views or the dogmatic fanatic who just parrots what others have told you. Generally, there is a quest for truth and wisdom and a love of travel, not necessarily physical. You may have an aptitude for foreign languages and a love of foreign culture.

NINTH HOUSE

IX

The Ninth House is commonly referred to as the House of Philosophy. In keeping with that theme, it's our search for meaning which is the focal point here.

Sun in Scorpio

Two animals are used to represent Scorpio, the eagle and the scorpion. The eagle is capable of reaching great heights because he has mastered his lower nature and overcome his passions and the temptations of the sensual sphere. The eagle has risen above the physical world because he has regenerated himself. The scorpion, however, represents those who have not regenerated their thoughts and actions and are still living degenerate

lives. They use their cunning and strike when least expected. These are the ones who satisfy their passions regardless of consequences. Scorpios in general are ambitious, efficient, courageous, resourceful and intuitive. But, they can also be jealous, sarcastic, resentful, stubborn, possessive and vindictive. Scorpio people enjoy impossible tasks. They like work that demands continued, determined effort and intense concentration. They are born detectives. Scorpio gives a strong will and determination to accomplish anything undertaken. Scorpios possess an analytical mind, strong intuition, reasoning powers, perception, long range planning ability, magnetism and energy. Scorpios have very definite opinions. These opinions can be so rigid that no amount of persuasion will make them change their minds. Scorpios make friends easily and give unwaveringly to them. In these relationships, they like to know what your plans are, but, because of their secretiveness, they do not necessarily want you to know what they are planning. They are capable of extreme self-sacrifice for those they love. If any of their loved ones are threatened in any way, they feel that they, too, are being threatened. This causes them to instinctively strike out, either verbally or physically.

SCORPIO

Scorpio is a Water element, and this makes it a somewhat enigmatic sign. Water is more receptive and introverted, but Scorpio is a Plutonian-power force. Perhaps that is why Scorpio is the sign capable of the greatest metamorphosis and renewal.

Moon Profile

The Moon symbolises protective urges, the unconscious mind, emotion, the home, feeling, reflection, instinctual responses, the family, rhythm, self-image, heredity, and nurturing. It represents the feminine principle, and complements the Sun. It is personified by the mother, wife, women in general, supportive figures, and those who protect.

Moon in 9th house

You are a dreamer and muse often about the higher aspects of life. Since you may not be content with the way your life currently is going, you have the desire to search for fresh fields. This search may take you on many long travels, both physically and mentally. Security may

be found in a religious or philosophical ideal. Your philosophy of life is what nurtures you and gives you security. You have a variety of interests, in sports, hobbies and studies. You make a stimulating teacher because of your personal interest in the subjects you teach. They are really a part of you and that comes across to those who listen to you. You may have precognitive dreams. Concerning vocation: the emphasis is placed upon the higher mind, the dimensions of philosophy, public mores, religion, law or sharing the reasoning of the public. Issues regarding foreign travel, relocation, even citizenship change are important dimensions to consider in the quest for work conditions that will bring personal success.

NINTH HOUSE

IX

The Ninth House is commonly referred to as the House of Philosophy. In keeping with that theme, it's our search for meaning which is the focal point here.

Moon in Scorpio

You are secretive and inclined to brood in silence over the wrongs that people have done, either in reality or simply in your own mind. The mental and emotional focus may be on sensual things or on sex or death. You find it difficult to trust people as you are suspicious of their inner thoughts and plans. You open yourself up to very few as you do not find it easy to trust others. Allowing yourself to be vulnerable and to relinquish control in relationships is not easy for you. You love with passion and you hate with passion. Everything is done emotionally, with intensity. You can be very jealous and possessive in your relationships. Perhaps your mother was very controlling. You have a habit of holding on to wrongs that have been done in the past and not forgiving nor forgetting, and to keep such feelings to yourself. Guilt, resentment and vindictiveness need to be overcome. You must learn to let go or your health will suffer. Learn to express your feelings outwardly rather than repressing them within. You are not content with superficial appearances and are always probing beneath the surface of things for hidden motives. You have a great deal of emotional depth. The potential for success is great when control and discipline are learned. You are magnetic, energetic, independent, aggressive, patient, and determined. Self-control of the passions is mandatory.

SCORPIO

Scorpio is a Water element, and this makes it a somewhat enigmatic sign. Water is more receptive and introverted, but Scorpio is a Plutonian-power force. Perhaps that is why Scorpio is the sign capable of the greatest metamorphosis and renewal.

Mercury Profile

MERCURY symbolises one's INTELLECT; MIND; INTELLIGENCE; COMMUNICATION; MEDIATION; LOGIC; ADAPTABILITY; MOBILITY; REASON; ANALYSIS; DISCRIMINATION; HUMOUR; KNOWLEDGE and SPEECH Unlike the Sun and Moon, it is a NEUTRAL planet, and is personified by SIBLINGS; FRIENDS; THINKERS; WRITERS; TALKERS and those who MEDIATE.

Mercury in 9th house

You are flexible, with an adaptable mind which has an interest in perhaps intellectual pursuits, law, religion or philosophy. You have many ideas and beliefs with the ability to express them well verbally. You probably enjoy travel and foreign culture and it is particularly educational for you. You have the ability to learn foreign languages or to be a translator. You may be a teacher or be involved in higher learning in some other way. Interest may exist in publishing or advertising.

NINTH HOUSE

IX

The Ninth House is commonly referred to as the House of Philosophy. In keeping with that theme, it's our search for meaning which is the focal point here.

Mercury in Scorpio

You have excellent mental concentration and the ability to become completely immersed in your work. You love ferreting things out and are a natural detective. Your mind may dwell on the sensual side of life and may think about sex or death often. You seem to know things at an instinctive, nonverbal level and prefer learning through direct experience or apprenticeship rather than vicariously via books or lectures. You have mechanical ability and work well with your hands. You may develop healing ability through your hands. You are quick-witted, resourceful, shrewd, direct, sharp-tongued, and will readily say what is on your mind, in a most stinging manner. You enjoy satire and other forms of critical humor. You want to know everything while at the same time disclosing nothing to no one. You have the ability to penetrate beneath the surface of problems and people and really understand them. You have abundant manual dexterity with the ability to repair anything. On the negative side, you can be stubborn, quarrelsome, skeptical, cynical, headstrong, and always holding the opposite views to others. There is interest in the occult.

SCORPIO

Scorpio is a Water element, and this makes it a somewhat enigmatic sign. Water is more receptive and introverted, but Scorpio is a Plutonian-power force. Perhaps that is why Scorpio is the sign capable of the greatest metamorphosis and renewal.

Venus Profile

VENUS symbolises RELATIONSHIP; HARMONY; LOVE; ATTRACTION; ART; BEAUTY; PLEASURE; RELAXATION; FRIENDS and SEX. It is FEMININE SEXUALITY in contrast to the masculine sexuality of MARS. We thus each have a masculine and feminine side, to a greater or lesser degree.

Venus in 7th house

You are charming, sociable and friendly and it is easy for people to see your loving nature. Partnerships are generally happy and harmonious. But your desire for peace and harmony at all costs may be detrimental to you if you do not stand up for your own needs. You desire a spouse who is attractive and probably well off

financially. Creature comforts and enjoying them with your partner are desired. Take care that you do not get in the habit of expecting too much from others, though. You have a deep appreciation of the value of relationships. Too great an emphasis on affection might cause problems for you. A desire for the perfect relationship may be so strong that any imperfections in your relationship could be blown up beyond proportion. Balance and poise are necessary. You seek a partner that can supply you with the good life. You want beauty, luxury and the finer things in life and you seek a partner who can provide these. Perhaps marriage will bring you to a higher station in life. Over-indulgence and over-emphasizing the sensual side of life can lead to problems. You must have a partner you feel is cooperative rather than competitive. If Venus is aspected poorly in your chart, then perhaps your partner's moral standards are subject to question.

SEVENTH HOUSE

VI

The Seventh House is commonly referred to as the House of Partnership. With this House, we see a shift away from the self toward another -- a partner. By cooperating with and relating to another we unite for the purpose of achieving something.

Venus in Virgo

You are quietly devoted and faithful to your loved ones, and often become a kind of servant to your love partner. You are more comfortable showing love for someone by doing something for them, making something for them, or simply being there for them rather than telling them so in a romantic sort of way. You are somewhat timid about expressing too much sentiment or emotion. You

may lack confidence in your own attractiveness and ability to draw love to yourself. This could create doubt of your own worthiness to receive love and appreciation. There is a strong tendency to be very critical of the partner and too expect perfection. Marriage may be delayed due to the desire to find that perfect partner, which does not exist. You desire everything to be clean and orderly around you. A tendency to criticize and nag can be overcome by learning how to serve others in a simple way. You are able to be kind, tender, and sympathetic, thus you may excel at nursing.

VIRGO

Virgo is an Earth sign, with a need for solid ground and form. Ruled by shape-shifting Mercury, Virgo works hard to stability. This sign analyzes and organizes life; the goal is to build a firm foundation.

Mars Profile

MARS symbolises DESIRE; AGGRESSION; WILL; ACTIVITY; IMPULSE; COMPETITION; SEX AND SEXUAL DRIVE; INITIATIVE; BATTLES; ANGER and MASCULINITY. It is MALE SEXUALITY in contrast to the feminine sexuality of VENUS. In a woman's birthchart, it often symbolises the IDEAL MALE IMAGE within the psyche that gives rise to attraction to those who embody or evoke it.

Mars in 11th house

You have strong desires and wishes, social leadership ability and many casual associations with energetic and enterprising friends. You probably put a lot of energy into your friendships. It is important that you seek the right type of friendships. You can be taken advantage of by friends or you can take advantage of them. Active participation in group activities suits you well. Leadership within the group also appeals to you.

ELEVENTH HOUSE

XI

The Eleventh House is commonly referred to as the House of Friends. Through our friends, we find strength in numbers -- we see the power of the collective, the group.

Mars in Capricorn

Your actions serve your ambitions for power, recognition, distinction, and status. You are not content to follow, but must have a leading role in whatever you do. If not handled well, the energies of this placement can make you appear ruthless, manipulative and bulldozing over anyone who stands in your way. You are efficient, tenacious, organized, dedicated, practical, disciplined and steadfast in your resolve to feel successful. Your drive and energy are directed toward practical material accomplishment and achieving concrete results. You are hard-working and capable of foregoing immediate comfort in order to achieve your long-range goals. You can easily become a workaholic and are very responsible and conscientious about doing a thorough job. You don't tend to gamble when it comes to implementing your plans but generally prefer the conservative, tried-and-true route and then following through with it. You rely on your own efforts and perseverance rather than luck or good fortune. There is a natural shrewdness and instinct for business or organizational management. You tend to be ambitious, persistent, patient, self-reliant and responsible. You are apt to be slow in learning, but there is total assimilation of knowledge. Your energy is carefully used. Success is very important to you. On the negative side you may have a quick irritability which needs to be controlled and a tendency to feel resentment toward others for supposed hurts. You need to learn how to forgive and forget and how to release your emotions and frustrations positively.

CAPRICORN

Capricorn is the leader of the Earth signs, ruler of Saturn. Here is a stabilizing force, one of the hardest-working signs of the Zodiac. The Mountain Goat has intense powers of self-concentration, but not in an egotistical sense.

Jupiter Profile

4

JUPITER symbolises EXPANSION; OPTIMISM; PHILOSOPHY; EXCESS; GENEROSITY; WISDOM; OPPORTUNITY; GROWTH; RELIGION; LEARNING; ASPIRATIONS; ENTHUSIASMS; INDULGENCE; POSITIVITY and VISION. It is the opposite of the principle of contraction symbolised by Saturn.

Jupiter in 7th house

Benefit, opportunities and wealth may come about as a result of marriage or partnerships in general. You seek a partner that can expand your visions, open up opportunities for expansion and help you grow. Your partner can strengthen your faith and deepen your religious or philosophical attitudes and ideas. You may

feel that you need a partner to help you develop your moral outlook and social conscience. Your partner, who may be a member of one of the professions, may be more affluent than you. If Jupiter is badly aspected in your natal chart, then your partner may be somewhat opinionated, lazy, self-indulgent, extravagant and self-willed, sometimes untrustworthy, immoral, shameless and wasteful. You are able to bring out the generous and good-natured impulses of others, but in order to get the best results from the marriage partnership you may need to control any extravagant tendencies and prevent false pride from unduly affecting the smooth course of your relationships.

SEVENTH HOUSE

VI

The Seventh House is commonly referred to as the House of Partnership. With this House, we see a shift away from the self toward another -- a partner. By cooperating with and relating to another we unite for the purpose of achieving something.

Jupiter in Virgo

You have a cautious, intellectual, analytical, and practical nature with an uncanny ability to sift the wheat from the chaff and determine the essential from the non-essential and the truth from the fiction. Your judgment is usually excellent and this helps bring success in business or work in general. You have a strong desire to expand your field of knowledge and to develop technical skill. On the negative side, you can at times be cynical, carping, critical, and mistrusting of others. There can be times when you get lost in the details and lose the bigger picture. There may be a dislike for exercise.

VIRGO

Virgo is an Earth sign, with a need for solid ground and form. Ruled by shape-shifting Mercury, Virgo works hard to stability. This sign analyzes and organizes life; the goal is to build a firm foundation.

Saturn Profile

SATURN symbolises RESTRICTION; LIMITATION; DUTY; WORK; CRYSTALLISATION; CONCENTRATION; INHIBITION; DISCIPLINE; FOCUS; INHIBITION, FORM and WISDOM. It is the CONTRACTIVE PRINCIPLE in contra-distinction to the EXPANSION represented by JUPITER. It is personified by THE ELDERLY; SERIOUS PEOPLE; BUSINESS-PEOPLE; THE SICK; WORKERS and JUDGES.

Saturn in 2nd house

You tend to be thrifty, practical and responsible, especially with money and possessions. This placement does not deny money, but you must work hard for it. Sometimes you are so busy squirreling away money that you forget to enjoy it. Having money set aside for a rainy day is fine, but you probably don't need as much as you tend to want to have set aside. Poverty is possible with this placement due to a lack of understanding of the true value of money and possessions. There is a tendency to become depressed over material matters. Your possessions are apt to bring worries rather than happiness because you may need to learn to share with others. There may have been too much emphasis on materialism in past lives. You may need to re-evaluate your values. Attitudes of possessiveness toward others must be changed. Feelings of being unloved, unwanted, and unappreciated occur with this position. You must value yourself before others can value you. Love yourself first.

SECOND HOUSE

II

The Second House is commonly referred to as the House of Possessions. While this speaks to that which we own, it's not limited simply to tangible things. We own our feelings and emotions, as well as our inner selves, abilities, needs and wants.

Saturn in Aries

The best quality of Saturn is system and the best quality of Aries is leadership. Therefore, you can be a very capable leader, one who knows what to do and is not afraid of going out and doing it no matter what it takes or how long it takes. Combat and competitiveness spur you on to greater achievements. Self-reliance is high within you and you probably feel that you are more

capable than those around you, hence you may end up doing all the work, which may antagonize you if you feel that others are not holding up their end of things. Saturn's worst quality is selfishness and Aries worst quality is interference with the plans of others. Therefore, you are also capable of meddling and trying to run the affairs of others. You may run roughshod over them in trying to get them to do your will rather than their own. You can be a real slave-driver. You dislike restraint of any kind and do not take kindly to others telling you what to do. Remember this as you give the orders. Obstructions, frustrations, and limitations come into play in your pioneering, self-starting efforts. Freedom comes only through responsibility and discipline. Impatience can ruin all the good work you try to do. Caution may need to be developed in the carrying out of your plans. Stability and security are important to you and you work with those thoughts in mind. Feelings of being inadequate may spur you on to tackle immense undertakings in order to feel more valued or worthy. Stress from trying to accomplish too much may make you prone to headaches. Saturn in Aries calls for you to be self-sacrificing.

ARIES

The Fire element of Aries brings assertive "I" energy. This is a flaming drive and the desire to do something! The Aries will is full of tension and passion; the "I" brings a need for independence.

Uranus Profile

URANUS symbolises SHOCK; CHANGE; INDEPENDENCE; THE NEW; INVENTION; REBELLION; INDIVIDUALITY; EXCITEMENT; ORIGINALITY; ECCENTRICITY; INSPIRATION; UNORTHODOXY and REFORM. It is personified by TECHNICIANS; REBELS; ALIENS; INDIVIDUALS; ECCENTRICS; ASTROLOGERS; REVOLUTIONARIES; REFORMERS, and those who are unusual or different in some way.

Uranus in 8th house

You have strong psychic feelings and a keen intuition. You perhaps have unconventional ideas about life, sex and death, which you do not necessarily reveal. The afterlife is a great mystery for you and you may seek to probe for answers. The occult sciences in general may intrigue you. You may experience difficulties through nervous tension. Sudden loss or gain could come about with other people's resources. There can be an unexpected inheritance or financial gain through unusual sources. Be careful around electricity and machinery. An interest in healing, perhaps through the laying on of hands, attends this position. You may have entertained thoughts of suicide in earlier years.

EIGHTH HOUSE

VIII

The Eighth House is commonly referred to as the House of Sex. This House delves into relationships -- interactions with another and how certain aspects of those interactions can take on a more communal nature.

Uranus in Virgo

You tend to deviate in an analytical and critical manner, particularly as it relates to work, service, hygiene and health. This can mean attraction to unconventional methods of healing, new ways of work, and ingenious ways of cleaning up the social environment. Again, this can mean, for instance, and interest in devising new work practices, or devising unconventional work practices, and similarly, for healing.. new or alternative. It is likely that you are practical and can put your new ideas to practical effect.

VIRGO

Virgo is an Earth sign, with a need for solid ground and form. Ruled by shape-shifting Mercury, Virgo works hard to stability. This sign analyzes and organizes life; the goal is to build a firm foundation.

Neptune Profile

NEPTUNE symbolises SPIRITUALITY; SENSITIVITY; THE AURA; MEDITATION; CONTEMPLATION; DIFFUSION; MERGING; COMPASSION IMAGINATION; TRANSCENDENCE; INSPIRATION; UNIVERSALITY; ILLUSION AND DISILLUSION; UTOPIA; IDEALISM; THE DIVINE; DREAMS; E.S.P.; DRUGS; HALLUCINATIONS; THE OCCULT; SELF-SACRIFICE; THE UNCONSCIOUS AND THE COLLECTIVE UNCONSCIOUS; MYTH; BLISS; PSYCHOSIS; WEAKNESS and DELUSION.

Neptune in 9th house

You tend to be idealistic, reverent, mystical and philosophical. You are drawn to ideas that espouse the oneness of all life and the idea of the immortal life of the Spirit. Dreams can be very vivid and possibly prophetic. If carried too far, your religious or metaphysical beliefs could border on fanaticism. Good judgment in these areas can be clouded and confused. Exaggeration can be present. Trouble with in-laws may surface due to lack of compassion and understanding. Be careful who you choose to follow as you may encounter wolves in sheep's clothing. In your travels you prefer to wander around on your own without too much planning or forethought. Strange, unforeseen things can occur while traveling long distances.

NINTH HOUSE

IX

The Ninth House is commonly referred to as the House of Philosophy. In keeping with that theme, it's our search for meaning which is the focal point here.

Neptune in Scorpio

You and people of this age, tend to dream about matters of a secret and profoundly deep nature in an intense and passionate way. You may be interested in a strong way in matters to do with mysticism, hypnosis and sex. You may wish to get involved in religious or cultish organisations and share your deep held beliefs or searching for profound secrets, such as those related to life and death. You may be interested in matters related to spirits, UFOs, vampires, and other uncertain and vague phenomenon. You should avoid a tendency to believe in things just because they are mystic and profound. You may experience conflict between one part of you that is intensely selfish and another than is self-sacrificing. You may be able to refine this differences by dissolving the deep hidden issues into universal oneness.

SCORPIO

Scorpio is a Water element, and this makes it a somewhat enigmatic sign. Water is more receptive and introverted, but Scorpio is a Plutonian-power force. Perhaps that is why Scorpio is the sign capable of the greatest metamorphosis and renewal.

Pluto Profile

PLUTO symbolises SEXUAL ENERGY; THE ORGASM; DEATH; TRANSFORMATION; DESTRUCTION; REBIRTH; POWER; EVOLUTION; THE MASSES; REGENERATION; THE WILL; REVOLUTION; THE UNDERGROUND AND UNDERWORLD; THE UNCONSCIOUS; WAR; ATOMIC POWER; BIOLOGY; SURVIVAL; PROCREATION and CONCEPTION. It represents the process of destruction of old forms and the release of the energy inherent in them in order to create new life.

Pluto in 7th house

Control and power issues along with feelings of ownership are present with the partner or spouse. Cooperation with the mate will need to be learned. A partner may be selected based on that person's ability to stand their ground and not give in. A partner such as this could make the relationship very combative and competitive rather than harmonious and equal-sided. You are inclined to seek a partner who will provide a challenge to discover new resources within yourself that will give you the power to transcend previous performances and to transform certain aspects of your being. A partner who makes you feel growth and intensity is one you seek. There is a tendency to admire well developed will power in others, with the result that you may attract those who tend to dominate you, possibly feeling that if you have to cope with a somewhat overpowering personality you may discover more effectively the full extent of your own resources. There are intense feelings and reactions in your relationships. You have a need to cooperate with others and expect total commitment in your partnerships. Trouble can occur when this same sense of commitment is not felt by the other person in the relationship.

SEVENTH HOUSE

VI

The Seventh House is commonly referred to as the House of Partnership. With this House, we see a shift away from the self toward another -- a partner. By cooperating with and relating to another we unite for the purpose of achieving something.

Pluto in Virgo

You delve into deep hidden matters in an analytical and critical manner. You seek self mastery through work, health and service. You are variable and versatile and are concerned with information, and you may be obsessive about these things. You are practical, use common sense and enjoy visual pleasures, art, etc. You are likely to be influenced by external matters or other people or groups, or by deep desires.

VIRGO

Virgo is an Earth sign, with a need for solid ground and form. Ruled by shape-shifting Mercury, Virgo works hard to stability. This sign analyzes and organizes life; the goal is to build a firm foundation.

Chiron Profile

Chiron in 1st house

Chiron is associated with the emotional wounds you receive early on in your lives. This shows your deepest wound residing in your sense of self. It can also be that you sometimes feel you don't have the right to exist, as others' reactions to and treatment of you over time might seem to edit or cut you out. You are a fighter for those who are less fortunate and give wonderful advice to others who seek your counsel. You often neglect yourself or feel unworthy. You might blow out of proportion and may feel that you are imperfect or unlovable, being hypersensitive to how others react to this part of you, such as obsession over the size or shape of your nose, the ratio of the length of your legs to that of your torso, or anything else that's simply unique about your body. Helping others help themselves and find their true potential is your strong point. Your weak point is doing the same for yourself. Chiron in first house may indicate a journey of self-discovery. There will be a need to find personal meaning in existence. You're learning to embody uniqueness without fear that others won't love you, because you're here to learn to love yourself in all the ways that others can't, don't, or won't. Let yourself do what you love and take your own advice as if you were giving this same advice to someone you love.

FIRST HOUSE

I

The First House is commonly referred to as the House of Self. The First House speaks to the realization of one's ultimate potential. This process of becoming a unique individual is one of the greatest contributions we make to the world in which we live.

Chiron in Pisces

Your energy antenna picks up on most everything in the world around you. You're more sensitive than most to the currents of unprocessed emotional stuff others are carrying, and you might unwittingly absorb them more than you feel is healthy. You also need time to unwind and unplug from the world, perhaps more than most people around you, in order to clear yourself out. Facing your own buried and painful subconscious and repressed memories and pain can heal. You may fall into the perpetual victim role, continually coddling old wounds or spending entirely too much time feeling sorry for yourself. Creative and meditative pursuits can work well here, and also unwinding in nature and with animals. Only through the experience of deep spirituality can the gift of healing emerge. Awareness of God is indicated here with this placement. You may feel that you have lost faith with the universe. You also may feel guilty even though there is no reason to feel that way. You must learn that sometimes things happen for a reason. By examining your problems, you may find deeper insight and connection. Facing your own buried and painful subconscious and repressed memories and pain can heal. Your inner self calls for a heart opening into choosing unconditional compassion, but you're picking up on – and likely absorbing – so much that it can seem an impossibility to respond to all of it with an open heart. Your task is to learn to accept the reality of pain, sorrow, and other kinds of suffering as part of the human experience, judging none of it while not absorbing it, and seeing it for what it is.

PISCES

Pisces is a Water element, ruled by mystical Neptune! This sign is extremely receptive, nurturing, compassionate, and other-directed. Pisces feelings run very, very deep. A mutable nature endows Pisces with adaptable and unifying energy.

House Profiles

The planets represent energies and cosmic forces that can be utilized in various ways. They are like the actors in a play. Houses represent the different spheres of life where these energies can be and are brought to bear, for better or for worse. If the planets are the actors in a play, then the houses represent the various settings in which the actors play out their roles (signs).

The 12 Houses of astrology are symbolic of all the departments that make up human life. The planets and zodiac signs will manifest themselves most strongly in the sphere of life represented by the House in which they fall on your chart. Remember, the houses are not "energies" like the elements or planets, nor do they color the expression of energies like the zodiac signs do. The houses are WHERE these energies are most likely to manifest. The houses are the fields of experience, not the experience themselves.

Matters dealing with the financial side of your life can bring opportunities from a variety of sources, and many of these sources could spring from unknown origins. The success or failure of your financial endeavors would hinge mainly on your own ability to recognize the inherent risks associated with these endeavors. One such risk might occur in not being able to obtain full disclosure about an impending transaction, or not being made aware of all the ramifications once a deal is closed. There could be hidden conditions that if known might cause you to change your mind. It need not be all this mysterious if you avoid rushing into situations before fully checking them out. You are inclined to possess a natural psychic sense that gives you the ability to see through any deception or false front.

Your sensitive and strong emotional nature bring you into contact with others that need love, understanding, and friendship. It is important that these associations do not drain you of your inner strength and energy. You can become overly concerned about the needs of others that, in the end, often affect your own health. Your over-all well-being is very dependent upon conditions in and around the home; comfort and a sense of security promote peace and contentment. You are susceptible to any discord around you, and this can bring problems with your stomach or bowels, and incline to gastric or intestinal trouble. Domestic issues should never intrude into the work-place, as this will result in loss of productivity. Working with people, such as social work, would be good, as your sensitivity is very keen, although when the day ends, you need to leave your work at the office.

You may begin looking to the idea of marriage at an early age in life, although serious thought on the matter will give caution to any sudden decision. Social standing and community reputation could influence your choice of a mate. You place some importance on marriage to someone within your own ethnic, cultural, and financial circumstances. Although the marital state is subject to the same up and down conditions as many other relationships, you tend to be proud of and loyal to your spouse. This is not to say that you can be treated unfairly or unkindly. As to partnerships in general, it would be prudent to use caution in taking on a partner; ambitious and overly zealous co-partners could create more problems than you would want to deal with.

Your solid grasp of the realities of life will protect you to some extent when other people attempt to work behind your back to undermine your position or authority. You can be patient and understanding in most cases, and this will nullify chances that resentment or enmity would become a problem. When it does become a problem it is likely to be in the area of work or business, and then because of competition or a desire to advance your career. Although you tend to be tactful and proper, there can develop a sense in other people that you exhibit a certain lack of sensitivity, and this could lead to the conclusion that you are cold and heartless. Of course this is only in the minds of those that think your desire to "get ahead" is breaking the rules, and there may not be any rules to begin with.
